

Hokkaido Summer Institute 2024 / Inter-Graduate School Class "Health, Society and Environment"  
One Health Frontier Graduate School of Excellence, Ally Course

# Environmental Health and Sustainable Development Goals I·II

In these courses, students will acquire knowledge about the environment and health in Sustainable Development Goals (SDGs); how each goal is connected and what research and initiatives are being undertaken to make it possible to achieve the goals. The class includes lectures, group work and site visit.

Venue: Faculty of Medicine, Centennial Hall Small, Conference Room

## I 3-7 / June

HU students Course Code 101528  
1 credit

## II 10-14 / June

HU students Course Code 101529  
1 credit

Environmental health and SDGs

Atsuko IKEDA  
Hokkaido University

Early life environment

and health

Yu Ait Bamai  
Hokkaido University

WHO and SDGs

Akeem Ali  
WHO (World Health Organization)

Chemical exposure

Rahel Mesfin KETEMA  
Hokkaido University

Environmental health drivers  
of infectious disease

Colleen LAU  
University of Queensland

Water safety in Vietnam

Le Thai HA  
Ministry of Health, Vietnam

E-waste and Health

Hien TT NGO  
Tang Long Universtiy

Sanitation and WASH project

Taro YAMAUCHI  
Hokkaido University

Environmental health hazards /  
Promotors and human exposures  
Child health -environments and hazards,  
exposures and associated diseases  
Management of environments  
to protect health

Paul JAGALS  
University of Queensland

Air quality

Kayo UEDA  
Hokkaido University

Occupational health

Tsuyoshi KAWAKAMI  
International Labor Organization

Organizer and Inquiry: Environmental Health Sciences Lab, Faculty of Health Sciences

PIC: [Atsuko Ikeda \[ehs-lab@hs.hokudai.ac.jp\]](mailto:Atsuko Ikeda [ehs-lab@hs.hokudai.ac.jp])

[Rahel Mesfin Ketema \[krahel@cehs.hokudai.ac.jp\]](mailto:Rahel Mesfin Ketema [krahel@cehs.hokudai.ac.jp])

Co-organizer : Center for Environmental and Health Sciences, Hokkaido University

(WHO Collaborating Centre for Environmental Health and Prevention of Chemical Hazards)
