

**For Ally module 4 in FY2025**

## **WOAH Regional Workshop on Avian Disease Prevention and Control in Asia and the Pacific 2025**

**26-28 August 2025**

**Faculty of Veterinary Medicine, Hokkaido University, JAPAN**

### **[Objectives of Workshop]**

- Share information on the global strategy for the prevention and control of high pathogenicity avian influenza
- Provide updates on recent outbreaks, surveillance data, and the impact of avian diseases over the past year
- Provide an update on OFFLU and other activities, following the recommendations from the previous meetings
- Update on diagnostic techniques and sampling for avian influenza in both domestic and wild birds
- Discuss effective prevention and control of avian influenza and other avian diseases in the region

### **[Participants to the Workshop]**

- Approximately 70 participants from the Asia-Pacific region: Country representatives from WOAHP Member countries/territories in the Asia Pacific region
- Experts from regional expert network on avian diseases, including WOAHP Reference laboratories/Collaborating Centres
- Global consultants and advisors for WOAHP projects and activities
- Focal secretariats in WOAHP
- Representatives from international organisations e.g., FAO, JICA, SPC, etc.

### **[Recruiting observers]**

- The observers are counted as participants to the Workshop. During the Workshop, the observers are requested for logistical assistant.
- For preparation to the Workshop, the observers are requested to attend one-hour call before the Workshop.
- In this regard, we open the slots to students as Module 4 of Ally course.
